New Water Service Connection

All new water connections applied for within Granite Mountain Water Company area will be installed only after mobile home or house is installed or constructed and water lines have been inspected by our installers. This must be done prior to backfilling trench.

Minimum trench depth may not be less than thirty (30) inches from ground level. A back-flow device (Check Valve) approved by state and/or other regulatory agency must be placed in the service line where it leaves the meter to the house or mobile home and must be visible to inspectors. A Gate Valve must be installed in the line approximately twelve (12) inches from the meter, if either of these items is missing, service will be denied until requirement is met and device is installed. This requirement has been in effect since 1985 and will remain in effect unless ordered changed by state or federal law. Customer is responsible for installation of all lines and devices from water meter to home.

Rules & Regulations for Easements and Rights-of-Way

The following is very important to the safety and welfare of your family as well as our employees. These rules must be complied with at all times.

EASEMENTS and RIGHTS-OF-WAYS

1. Each customer shall grant adequate easement and right-of-way satisfactory to the utility to ensure that customer's proper service connection. Failure on the part of the customer to grant adequate easement and right-of-way shall be grounds for the utility to refuse service.
2. When a utility discovers that a customer or his agent is performing work or has constructed facilities adjacent to or within an easement or right-of-way and such work, construction or facility poses a hazard or is in violation of federal, state or local laws, ordinances, statutes, rules or regulations, or significantly interfered with the utility's access to equipment, the utility shall notify customer or his agent and shall take whatever actions are necessary to eliminate the hazard, obstruction or violation at the customer's expense.

GROUNDS FOR REFUSAL OF SERVICE

A Utility may refuse to establish service if any of the following conditions exist:

1. The applicant has an outstanding amount due for the same class of utility service and the applicant is unwilling to make arrangements with the utility for payment.
2. A condition exists which, in the utility's judgment, is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.
3. Refusal by applicant to provide the utility with a deposit.
4. Customer is known to be in violation of the utility's tariffs filed with the Commission or of the Commission's rules and regulations.
5. Failure of the customer to furnish such funds, service, equipment, and/or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
6. Applicant falsifies his or her identify for the purpose of obtaining service.

I have read and understand the rules and regulations above.
